

BMEEC Construction Machinery Co., Ltd. is located in Beijing, capital of China. The team has R&D and manufacturing experience of over 30 years, and we are capable of researching, developing and manufacturing a full range of bulldozers, excavators, and undercarriage parts for Komatsu, Shantui and CAT. Based on the advantages of construction machinery supporting facilities, the company pursues manufacturing and digital integration and keeps enhancing its core competitive advantages. We are committed to providing our customers with high quality and value-added products through strict production management.

BMEEC undercarriage parts are perfectly compatible with Komatsu 65EX bulldozers and PC500 excavators, which are very popular in south America.

Parts photos from our workshop

Undercarriage parts

Rollers Capacity **150,000** pcs

 Excavator Rollers 0.8ton-200tons	TRACK ROLLER	CARRIER ROLLER	IDLER	SPROCKET
				
 Dozer Rollers 80-900 horse power	TRACK ROLLER	CARRIER ROLLER	IDLER	SEGMENT
				

Undercarriage parts

Forging Capacity for links and segments

 Excavator Rollers 0.8ton-200tons	TRACK LINK	SEGMENTS
		

Undercarriage parts
